

## CONSTRUCTION BULLETIN

### Lane Shift on Highway 1 from Willingdon Avenue to Douglas Road

Starting the week of **November 30, 2009**, a lane shift will come into effect as part of the Port Mann/Highway 1 Improvement (PMH1) Project. Along Highway 1, between Willingdon Avenue and Douglas Road, lanes will be shifted to create more space for crews to work in the centre median area to build additional lanes. This traffic pattern change will be in place until early-2011.

Once this lane shift is complete, travel lanes and the median shoulder will be slightly narrowed. The outside shoulder will remain at the standard width, allowing emergency access when needed.

Motorists can expect additional lane shifts in the Burnaby corridor of Highway 1 in the new year.

These changes will be well signed and traffic control personnel and equipment will be on site to direct traffic. Drivers are requested to obey posted construction speeds and watch for construction information signs and flag persons, particularly at night, when intermittent lane closures may be required. Drivers are reminded that traffic fines double in construction zones.

A key goal of the PMH1 project is to maximize predictability during construction and minimize disruption for commuters, goods movers, residents and the public. Construction updates will be issued regularly as the project progresses.

If you have any questions, or if you would like to be added to our distribution list to receive project updates, please use the contact information below.

#### The Project

The **Port Mann/Highway 1 Improvement Project** is part of the Ministry of Transportation and Infrastructure's Gateway Program, which will improve roads and bridges for people, goods and transit throughout Metro Vancouver. The project is being delivered by the Transportation Investment Corporation with Kiewit/Flatiron General Partnership as the contractor.
