

## CONSTRUCTION BULLETIN

### Temporary Traffic Pattern Change on 176 Street in Surrey

Motorists and residents are advised that beginning the week of August 9, the northbound and southbound lanes on 176 Street will be moved slightly west; south of 104 Avenue (see the green line on the map below). As part of this traffic pattern change, the intersection of 104 Avenue/176 Street will be located 50 metres to the west of the current location. This will be in place for approximately one year.

This temporary traffic pattern change is required for crews to complete ground improvements for the new South Fraser Perimeter Road and 104 Avenue/176 Street intersection.

This traffic shift will be implemented over one night. Traffic control personnel will be on site to direct traffic during this period. Drivers are reminded to obey posted construction speeds and watch for information signs and flag personnel.

A key goal of the PMH1 project is to maximize predictability during construction and minimize disruption for commuters, goods movers, residents and the public. Construction updates will be issued regularly as the project progresses. If you have any questions, or if you would like to be added to our distribution list to receive project updates, please use the contact information below.

#### The Project

The **Port Mann/Highway 1 Improvement Project** is part of the Ministry of Transportation and Infrastructure's Gateway Program, which will improve roads and bridges for people, goods and transit throughout Metro Vancouver. The project is being delivered by Transportation Investment Corporation with Kiewit/Flatiron General Partnership as the contractor.
