

# Port Mann/Highway 1 Improvement Project

Vancouver/Burnaby

January 14, 2010

## CONSTRUCTION BULLETIN

### Lane Shift on Highway 1 from Douglas Road to Kensington Avenue

Starting the week of **January 18, 2010**, Highway 1 lane shifts in Burnaby will continue as part of the Port Mann/Highway 1 Improvement (PMH1) Project. Between Douglas Road and Kensington Avenue, lanes will be shifted to create more space for crews to work in the centre median area to build additional lanes. This traffic pattern change will be in place until early-2011. (*please note*: dates are subject to change due to weather)

Once this lane shift is complete, travel lanes and the median shoulder will be slightly narrowed. The outside shoulder will remain at the standard width, allowing emergency access when needed.

Drivers are requested to obey posted construction speeds and watch for construction information signs and flag persons, particularly at night, when intermittent lane closures may be required. Drivers are reminded that traffic fines double in construction zones.

If you have any questions, or if you would like to be added to our distribution list to receive project updates, please use the contact information below.

*A key goal of the PMH1 project is to maximize predictability during construction and minimize disruption for commuters, goods movers, residents and the public. Construction updates will be issued regularly as the project progresses. If you have any questions, or if you would like to be added to our distribution list to receive project updates, please use the contact information below.*

#### The Project

The **Port Mann/Highway 1 Improvement Project** is part of the Ministry of Transportation and Infrastructure's Gateway Program, which will improve roads and bridges for people, goods and transit throughout Metro Vancouver. The project is being delivered by Transportation Investment Corporation with Kiewit/Flatiron General Partnership as the contractor.
